Lifting up to 5 lbs.						●	●	●	●	●	●	●	●	●	
Overhead Activity										●	●	●	●	●	
Lifting greater than 5 lbs.										●	●	●	●	●	

The intent of this protocol is to provide guidelines for progression of rehab. It is by no means intended to serve as a substitute for clinical decision making. Progression through each phase of rehab is based on clinical criteria and time frames as appropriate. It is important that each phase of rehab is mastered prior to initiating the next phase to insure proper healing of repaired tissues. © Copyright 2012 Dr. Peter Millett/Howard Head Sports Medicine

\*Dr. Mook would like to thank Dr. Millett, The Steadman Clinic, Dirk Kokmeyer, and the staff at Howard Head Sports Medicine in Vail, Colorado for the creation of these rehabilitation recommendations. They have been updated and modified to suit the needs of Dr. Mook's patients.

Phase III: Initial Resistance Strengthening & Proprioception	1	2	3	4	5	6	7	8	9	10	13	17	21	25
External Rotation						•	•	•	•	•	•	•	•	•
Internal Rotation						•	•	•	•	•	•	•	•	•
Punches with a Plus						•	•	•	•	•	•	•	•	•
